## About Us

**Organic Buyers Group** is a 100% Australian owned and operated online grocery store that delivers premium certified organic and gluten free products direct to your door. Affordable prices and low margins ensure bulk savings on organics are now accessible to all retail customers. Spend over \$35 for FREE fast delivery to more than 660 Sydney region suburbs (unlimited weight) or a low \$10\* flat rate around Australia. We offer competitive shipping rates worldwide. Exceptional customer service is a core objective of the Organic Buyers Group, raising the standard in the home delivery industry.

Organic Buyers Group is the brainchild of an enterprising pair passionate about making organic food and other products readily available to all, in the interests of promoting health and the preservation of our fragile environment. Beginning in the noughties with the staples of certified organic free-range eggs, non-dairy milks and traditional sourdough breads, our product offerings have now grown based on customer requests and recommendations to over a thousand meticulously researched foods and other household and personal care products representing hundreds of brands. We select products for their purity, high nutrition value and effectiveness. Friendliness of the product and its packaging to humans and nature before, during and after production is also a key factor in our selection process. Genetically modified or engineered (GM/GE/GMO) 'frankenfoods' and ingredients are unwelcome here.

Our veritable smorgasboard of nourishing and delightful foods aims to satisfy a wide spectrum of different tastes and dietary requirements. Over 80% of the foods in our range are gluten-free and over 95% are suitable for vegans. Every day our groceries, personal care and household products range is growing with the help of your feedback and suggestions.
